

PUBLIC COMMENT OPPOSED TO THE RELOCATION OF THE CURRENT RV  
PARKING SITE.

Mr Paul Martin, Chief Executive Officer.

Shire of YORK.

Dear Sir, Further to my submission dated 24 December 2017.

The Shire of York has an opportunity, at this time, to guarantee the future RV tourism to York for years to come. Initially to retain the existing overnight RV facilities where they currently are located.

The advance in the promotion and construction of RV recreational vehicles is at an unprecedented high, which will ensure the tourism advantages for small town like York, well into the future, IF plans to encourage them to choose to stop in our town are put in place.

The Shire of York has the opportunity of this decade to secure its share of the tourism wealth that is on offer to those Shires with the foresight to provide the facilities required.

With the existing facilities available in York, we have already gain recognition and good report with the touring people of Australia. This is largely due to the word of mouth passed on as these touring people stop at night and discuss with each other, other free good camping spots.

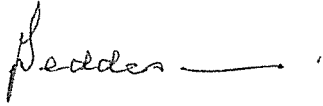

Now, as the Shire is discussing the future planning, is an ideal time to include planning facilities that will cater, not only for the wishes of locals, but will include facilities that will encourage greater numbers of RV tourists to our town. Bearing in mind that Beverley and Quairading are also listed as RV friendly towns.

The COST, The expense of establishing and maintaining such facilities need not be as high as the cost of the relocation proposals currently before Council.

I am confident that a working group, if established, would prove that an alternative solution can be found that will not only satisfy those residents that consider tourists are getting greater advantages than they, at the same time ensuring that the town of York is set up with facilities that will encourage more RV tourists to come to York and have time to spend and enjoy the many places of interest we have to offer.

From the previous submission, it is obvious that even now York businesses are benefitting from having these travelling tourists stop in York.

I remain an energetic and proud resident of this beautiful piece of Australia call YORK.

A handwritten signature in black ink, appearing to read 'Feddersen', followed by a horizontal line.

G.L. Feddersen

Attention: Mr Paul Martin  
CEO  
Shire of York

Hi Paul

*I am a member of the Sandgroper Caravan Club and I am of the understanding that you are in the process of reviewing the free RV site at Avon Park, York. Please do not move or alter the RV site at Avon Park. It is an excellent site, with very good facilities, in a great location that makes it very easy for us to walk into town and shop. I'm sure many caravanners, including ourselves, would be very disappointed to see it moved out of town or altered.*

*My husband and I and many members of our club have enjoyed using this site when we have travelled thru York. It has also encouraged us to return to York for a longer holiday. We travelled to York twice last year for rallies and I must say that we enjoy your beautiful town very much. I would not like to see York miss out on people staying as they travel thru in their caravans and RV's. When we come to town we always ensure that we visit at least one or two tourist attractions and we never miss a chance to shop on your beautiful main street.*

Regards,

**Dianne Young**

To whom it may concern

Please leave the site where it is, being pensioners we value these sites greatly. It gives us time to have a good look around the town spending money along the way. If we had to pay caravan parks all the time we wouldn't have the money to buy meals & pay admission prices to attractions etc. We would greatly appreciate the site being left where it is.

Yours sincerely Mrs. S. Smith. Geraldton

## RV PARKING RELOCATION

Posted on: Wednesday, 6 December 2017 at 2:34:47 PM

### RV PARKING RELOCATION SITES OPEN FOR PUBLIC C

In conjunction with the Avon Park Redevelopment Plan, the Shire is seeking community feedback on the relocation of RV parking presented at Council's November meeting. The two relocation options are:

- Monger Reserve - located adjacent to the coffee carriage area.
- Avon Park adjacent to the Croquet Club.

Maps of the proposed options are [available here](#). Feedback from the community is open for public comments for four weeks closing on 29 December 2017.

Comments can be made in writing to P O Box 22, York WA 6302 or by email [records@york.wa.gov.au](mailto:records@york.wa.gov.au)

**Subject:** Free RV Site York

To whom this may concern

I have been notified the current RV site with lit powered sites, toilets & dump point is being considered for relocation to another site without the current facilities.

Should these changes take place we would not consider staying in York but pass through to the next town.....depending on the direction we are travelling.

Whenever we stay overnight in our unique country towns we always take time to visit local businesses and generously patronise them. Altering your current site could prove to be a big mistake which will in turn reflect onto your local business owners.

Kind Regards

Lyn Passmore

Attention: Paul Martin  
CEO, York Shire Council

To whom it may concern in the York Shire Council, re the attached communication.

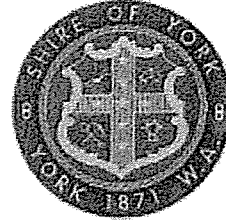

We are currently members of a Motor Home club and have been visiting York for many years. It is a very pleasant town with good local shops, cafe,s, hotels and public bars. The greatest attraction to us and the other 50 odd members of our club is the RV Friendly facility next to the Avon with good toilet facilities, dump site and for a few free power outlets. This facility is a great attraction and it would be disappointing to see it removed or moved to another location lacking these obvious attractions. We sincerely hope you will retain the existing facility in the interests of your town and visiting RV travellers.

Yours Sincerely

Mike and Jean Steward.

Re RV Parking Relocation sites

My comment on the relocation of the RVS

Avon Park adjacent to the Croquet Club would be perfect !

I have wanted them moved since they arrived – they look shocking all parked along the front of our Beautiful Avon park !

Where cars parked for the playground and a picnic etc !

Yes Yes move them please I love our Avon Park ( without the RVS )parked in front

Whos mad idea was it to put them there in the first place !

We do have a Caravan Park in York I feel RVS etc should go there

But if you the Council feel they need somewhere else WHY !!!! I think near the Croquet Club( and no free power )

Just letting you know I think the Council does a wonderful job of keeping Avon Park in great condition

We go there a lot.....

### **Subject: Location of Rv site**

I often pass through York with my caravan. Now I know there is free camping with a dump site I would most probably stay a night so I could explore the town and spend time in the area. I travel south from Geraldton and York is a convenient half way stopping point. Please don't resite the existing 24 hour camping spot. A dump point is what we caravanners always look for and the toilets are a real bonus.

I have passed this message about your area to the 50 units in our caravan club. Please don't relocate.

Dear Mr Martin

It has come to the attention of our Caravan Club that there is a proposal to shut down the RV Town Parking Site in York.

Our members are not happy with this news, as it is a site that a number have used from time to time.

Being located where it is with easy access to town, this is a great stopping off point for caravanners.

Having access to the toilets, power and dump site are facilities that are keenly sought by RV travellers, and York has it all.

If there is a proposal to create additional overflow parking at another site, then we would welcome this initiative.

We are sure that the business community in York would be in support of the additional business that is generated by RV travellers staying in the town and purchasing supplies etc.

If the York facility were no longer available, then our members may be inclined to continue to other towns in the area where RV facilities are currently available. If a modest fee were required to be charged to retain this facility, then I am sure that travellers would be happy to pay.

We note that in recent years a number of RV facilities have been improved in country towns in WA, and this benefits not only the travellers who pass through, but also the various businesses who rely on this passing trade.

We urge the York Council to retain this valuable asset for the RV community.

Thank you.

Hello,

Reference the proposal before Council to shift the RV 24 hour rest stop away from its current position by the river.

My wife and I do not support this proposal as the current site has some power and potable water facilities, is within walking distance of the shops and restaurants in the main street, and is on a bitumen surface besides a well kept lawned area overlooking the scenic river.

All of this amenity would be lost if the site was moved away from the CBD, therefore making it an unattractive option for us to stay overnight in the proposed area.

Should this occur, we would simply move on and visit a more friendly RV location.

Regards

**E-MAILED**

*Paul M. 11/1/18*

To York Council:

It has come to our notice that the York Council is suggesting changing the free camping area in York to a site which is further away from the town centre and will have no facilities. The free camping area in the present position is great as we can walk into the main street to visit the shops and also Hotels/Taverns which means we can enjoy a drink and walk back to our caravan. The facilities are good to have and this encourages travellers to stay in York where they can shop, fill up with fuel, empty the toilet cassette etc. in a safe environment.

On behalf of other travellers we feel changing this good free camp would make us bypass York which is a shame because it is a lovely town to explore. We are finding on our travels quite a few towns in the eastern states are welcoming travellers and providing them with good facilities to encourage them to spend money in the town therefore this seems to be a backward step for York.

Kind regards,  
June and Allan Foote  
Travellers from Perth.

Hello,

I am a member of 2 caravan clubs who regularly use the current free area within the York townsite.

To close and move this area to another location that does not have this locations facilities would be a huge mistake.

I urge the council to reconsider this proposal and leave the current location open.

RV and Caravan clubs bring much needed revenue to any town it visits and York is no exception.

Most caravaners bring much of there needs with them, but the close proximity to shops and Restaurants from the free parking area means that we as a group willing spend money within the townsite.

Moving to another location would stop this spending.

Thanks & Regards

Hi staff,  
On behalf of the York Motor Museum I have the following submission attached.  
Thank you for the opportunity to provide a submission.  
Regards,  
John Bullock.  
○ Manager/curator

## **KEY POINTS OF RV PARKING SUBMISSION**

### **YORK MOTOR MUSEUM**

#### **Plan to retain only 4-6 sites at the current location.**

Reasons for;

1. Already infrastructure in place with no extra costs to establish.
2. Free security, overnight surveillance of playground , toilet block and park.  
I have heard vandalism repair cost have reduced from around \$40,000 to about \$6,000 per year since RV camping established.
3. This location will maintain York's top destination for free camping in WA. Extremely important as the huge web of travellers compare and chat to others as they come and go Australia wide. Please have a look at "wikicamps" app, and see what positive vibes we give out from general comments on York. (unfortunately you will also see the negative comments on the local caravan park)
4. Close and safe for travellers to utilise restaurants and hotels at night.

#### **Provide and overflow to the eastern side of river near croquet courts.**

Reasons for;

1. Reduce vandalism at the croquet club.
2. Utilise and financially allow for the beautification of this area.
3. Likely to be able to share toilet facilities, or add on before construction of the new croquet clubhouse begins.
4. Maybe only minimal lighting required as envisaged no power points need to be available.
5. Still a very close walking to town location.
6. Allow for many more caravans and motor homes to come and enjoy York and support local businesses.

### **FINANCIAL POSSIBILITIES AND PROPOSAL.**

In many smaller overseas towns they allow limited overnight stays, by permitting local businesses to allocate and sell parking vouchers (to campervans to park in and enjoy spending money in their towns.) This removes the onus on the local authorities to manage, book keep and audit the process.

Our proposal is to sell tickets or overnight vouchers in the museum, as we are open 9am to 4pm daily, and in return we could help manage the camping areas, help fund toilet cleaning and be able spend some money beautifying the eastern area.

The York Motor Museum is the trading name of the Avon Motor Museum Association. This is a community owned and managed venture to primarily keep the museum in York, financially independent, and able to support the growth of this town. The AVMMA is registered as a non for profit charity and all proceeds will be to improve both the museum and in promoting the vitality and vigour of the towns businesses.

## **Future**

There has been studies by the caravan industry in the Eastern States and there is an estimated 500,000 people "on the road" in Australia at any one time. Now many are heading West.

It has been suggested that we need a sign on the Great Eastern Highway coming into Tammin showing an alternative route to Perth via "The oldest inland town and the most historic". ( I think the distance to Perth is only 5 kilometres longer ) Maybe our York Motor Museum could be incorporated in the signage.

**KEEP YORK ONE OF THE MOST  
FAVORED RV DESTINATIONS IN WA.**

✓ **E-MAILED**  
Paul M. 2/1/18

Paul Martin,  
Shire of York,  
Chief executive Officer,

I write this letter with concern regarding the proposed closing of the 24 hour stopover point in York.  
I have used this facility several times and find it is ideally located with regards with near proximity to the town.  
Also to have a dump point and a toilet block located on site is a bonus for people travelling through the town.  
The park facilities are also appreciated. The four power points have all been fully utilised each time I have been there.  
( Maybe some more of these could be installed?)  
I understand that the proposed new facility will not have these amenities and will be further from the heart of the town.  
What caravaners look for in an overnight stop is not having to not unhitch the caravan and not have to far to go to the town on foot  
so the nearer to Town amenities the better.

While there could be some argument that more parking space for caravans is quite often needed maybe an overflow  
area could be considered instead of moving the current one.  
My caravan club is holding a rally at White Gum Farm on Australia Day weekend 2018 and I know some of our members (myself  
included)  
plan to be using your overnight facility.

The views expressed here are my own as I have not had time to canvass my club members although I remain certain they would  
echo my thoughts.

Yours Sincerely,  
Richard Palmer,

OFFICER	PAUL
INITIALS	
2 - JAN 2018	
I163968	
REFERRED TO COUNCIL	
DATE	INITIALS

Dear Mr Martin,

Re: RV PARKING RELOCATION OPTIONS

In conjunction with the Avon Park Redevelopment Plan, the Shire is now seeking 'community feedback' on a proposed relocation of RV parking either to a Monger Reserve site or to an Avon Park / Croquet Club site (as depicted on your recent sketch plans).

My residential property at 22 Monger St, York, overlooks and is directly affected by the former site. You will recall from my email of 10/10/17 and related exchanges that I am strongly opposed to any RV hardstand parking area on or relocated to the Monger Reserve site.

I stand by the grounds of objection set out in my earlier email/letter. Put shortly, if finally the Council feels obliged to proceed further, then in my view the Avon Park / Croquet Club option clearly seems to have greater merit.

The points I wish to make are as follows:

First, the Monger Reserve site is larger (24 RVs), more expensive (\$30,000) more disruptive (parking/traffic adjustments necessary to Thorn/Stephen Streets and on the reserve itself), and will directly affect a number of nearby residents including my own household.

Second, the Avon Park / Croquet Club site is smaller and more manageable (15 RVs), less expensive (\$15,000), does not directly affect nearby residents and is not only favoured by the adjoining Croquet Club but also is closer to the town business centre and related facilities.

Third, responses received by the Shire seem to establish that the somewhat remote or 'out of the way' location of the Monger Reserve site will not be acceptable either to RV visitors to York or to local business owners. This means that in practical terms relocation to the Monger Reserve site will be to no avail and thus a waste of money.

Fourth, the basic objection voiced in my earlier 10/10/17 email letter still remains - even a short stay RV hardstand area will have the look of a permanent caravan park. This will be contrary to the purpose of a public reserve created principally for the recreation of local ratepayers and, by reducing the amenity of a quiet riverfront area adjacent to the central park, will be quite contrary to the spirit of the Avon Park Development Plan.

It follows from the above that in making these submissions that I do not necessarily concede that a proposed relocation to the Monger Reserve site would be lawful, notwithstanding the informal advice that the Shire has apparently received from certain officers of the Lands department.

I trust that a copy of this email letter will be brought before the Council as part of the community feedback and that the community will continue to be kept fully informed as the matter proceeds.

Yours sincerely

*S. A. Hasluck*

Shire of York

- ☐ We believe there has been discussions of changing the venue where we park our vans in York. We were thrilled when your council gave us permission to use the area to park our vans, when we visit your town. It is in such a wonderful position, very central & convenient for our members, who are mostly elderly & don't want a long walk to all of your amenities. We always have a meal in one of your fine establishments, which would help your economy, we are sure. If the venue was changed to another area without lights, toilets & dump point provided, we are afraid, we would probably bi-pass your town & go elsewhere. Please keep the parking sites that you have created, for travellers like ourselves.

To the CEO of the York Shire

I have heard that you and council are voting whether to keep the 24 hours rest area at the park open or closed. I would like you to vote in favour of keeping the caravans at the Park. As a fellow traveller I was amazing with the wonderful free sites around our lovely country. I have to say every time I drive past the park and see caravans parked up for the night it puts a smile on my face - I am glad they have come to our lovely town. The York 24 hour rest area is well known around Australia now as travellers have commented to other travellers etc. it brings money in to our gorgeous little town. I will be very upset to see this area closed down because of a few narrow minded people that are against it. Please keep the rest area. Kind regards Simone Loder

CEO Paul Martin, we have learned that this very convenient facility is being considered for closure.

This would not be a popular move with the RV owners who use it and would likely result in less people enjoying York.

I do not know whether the York Council owns, or has any influence with the local Caravan Park but I do advise, that because of its very sad and unattractive condition, it is not a popular spot for a lot of caravanners.

As a member of a Caravan Club, that was formed at York many years ago we now find it preferable to go to other towns nearby.

**SynergySoft:** I163873 - CS.CCS.22

Attention: Mr. Paul Martin, CEO

Dear Mr. Martin,

We understand that there is a proposal to discontinue the current site allocated for the parking of recreational vehicles.

As a Club we have on many occasions stopped in the current location either to visit the town or as a stopover on the way to other destinations. It is only a short walk to shops etc and every time we visit 15-20 members shop, refuel and eat at the local hotels and restaurants.

To move this site would have an extremely detrimental effect on all the local business which they can ill afford.

Please reconsider this proposal and consider the negative impact this would have on the Town of York.

Yours faithfully,  
Frankie Comstive (Sec)

**E-MAILED**  
Paul M.  
15/12/17

Hi, I have been advised that the York Council is considering the removal of the RV parking and dump site from its present location and providing lesser facilities.

☐ I'm a member of a caravan club which frequents the surrounding areas of York, Northam and Beverley.

I am strongly opposed to the relocation of the RV parking which includes the removal of the dump site.

York is a very desirable location for tourists but unless the caravaners are encouraged to visit and stay with appropriate facilities the York town may influence the travelers to continue to either Northam or Beverley or other surrounding locations that supply suitable facilities.

I have spent over thirty years working for local government and can appreciate that complaints and recommendations have to be addressed, but I also know attention should be given to the majority and the best interests of the municipality.

☐ Hoping the interests of the local businesses of York and the RV travelers/tourists are given due consideration.

Regards  
Jim Mackie

**Subject:** I163877 - CS.CCS.22 - Closure of Town RV Overnight Parking Area  
  
**SynergySoft:** I163877 - CS.CCS.22

I am responding to the unpleasant news the the RV Overnight Parking Area is to be relocated to a less accessible area to the main townsite.

The current location is very suitable for travellers not only to use but also to it's close proximity to the centre of town and the business precinct area. My wife and I have used the current area several times and find it wonderful for our needs.

I for one think it is a retrograde step, especially for the town of York and its businesses who as everyone knows, if RVers stop in a town, they invariably spend money on something.

I would urge councillors to reconsider this action and to keep the "status quo"

Yours sincerely

14 December 2017

Dear Paul,

**RE: Relocation of the RV parking site in conjunction with the Avon Park Development Plan**

We note that the notice calling for submissions on the relocation of the RV site on the Shire of York website has given two options,

- Monger Reserve - located adjacent to the coffee carriage area, and
- Avon Park adjacent to the Croquet Club

It would appear from this that the submission from the York Croquet Club has been considered, but the submission with signatories from the York Business Association - to keep the RV site where it is - has not been offered as an option.

In our opinion, the option is not WHETHER to move the RV site. It is

1. to KEEP it where it is, with the commensurate benefits, or
2. to LOSE the majority of the RV visitors (and their \$\$ spend).

Verbal feedback, comments left at the York VC and on forums, underline that the RV community appreciate the clean, green and convenience at the existing site AND the amenities and surrounds that we offer. It is highly unlikely that offering an alternative site, without the proximity to shops and businesses that currently exist, would result in the same numbers visiting. From discussion, power is NOT a big draw and they would be happy to be without it, but in the same place.

We wish to advise Council, in the strongest possible terms, that moving the RV site from its current position will most certainly result in loss of business along Avon Terrace, business that comes into the town on a regular basis, 52 weeks of the year, not just during Festival and event times. The RV community operate a highly effective communication system through many websites, forums, Facebook pages etc, and once word was spread that our

central town site has been closed, they will move onto other towns which DO offer that convenience. York has a wonderful name within the caravan community - it would be a pity to lose such a hard won reputation.

This is not even to touch on the savings due to the drop in vandalism since the site has been located in its present position.

As the for spurious implication by stealth of pedophilic caravanners, this is such an ignorant statement, without proof and in contradiction of data showing most abuse being carried out in institutional and/or family situations, it does not warrant further comment.

We will be lobbying Council in relation to the above, but would welcome our views being included as an option for comment.

Sincerely,

\*\*\*  

for the  
York Business Association, Inc.

Dear Sir,

I am writing to express my concern regarding the proposed relocation of the free RV parking Site.

☐ The current location which has a dump site, toilets, and power is well-suited to the RV traveler as it is in close proximity to shops and local attractions.

We have visited York on a number of occasions with our 29' Van as Pioneer Avon Park readily accommodates our van and we are able to easily walk into the shopping precinct.

Pioneer Avon Park is truly a great asset to the town and provides an additional inducement for visits by the RV community, some of whom may bypass York if it is closed or relocated.

Best regards,

Alan & Jill Evans

**SynergySoft:** I163788 - CS.CCS.22

York Croquet Club would welcome the establishment of an RV parking area adjacent to the Club either as a replacement for the existing RV parking or as an adjunct to it. Having the RVs located there would enhance the security of the area which has been subject to vandalism from time to time and offer the possibility of shared toilet facilities once the clubhouse is redeveloped.

REFERRED TO COUNCIL	
DATE	INITIALS

PUBLIC COMMENT OPPOSED TO THE RELOCATION OF THE CURRENT RV  
PARKING SITE.

Mr Paul Martin, Chief Executive Officer.

After reading Shire of York, Community Updates, in The York and Districts Community Matters, December 2017 edition, I must, on behalf of all RV tourists that bless York with their tourist dollars, object most strongly to the proposal.

After visiting the Shire office and acquiring the plans referred to, I visited each proposed site, noting the reduced facilities and frankly the unsuitability of the sites, the only conclusion drawn was, if it is the Councillors desire to cripple the RV traffic to York, then they must be congratulated on what will be a successful achievement.

To test my theory an independent survey form was prepared for circulation to those people that will be most affected.

The survey sheet together with a copy of the Shire Add, was handed to every RV unit that stayed overnight, commencing Sunday 17 December and concluded on 22 December 2017. The actual survey sheets are attached and form part of this submission, not one person approached declined to participate, as from their comments, they were keen to have their say.

Statistics of the RV traffic – 17th to 22<sup>nd</sup> December 2017 were:-

DATE	# RV's	# Adults	# Children.
17/12/2017	4	8	Nil
18/12/2017	2	4	Nil
19/12/2017	5	8	Nil
20/12/2017	1	2	Nil
21/12/2017	2	4	1
22/12/2017	2	4	3
TOTALS	16	30	4

Bearing in mind this is off season, there was not one night without an RV.

Submission continued.

A couple of points raised in conversation with the tourists:-

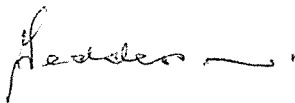

The CMCA, (Campervans Mobilehomes Club of Australia) in its magazine The Wanderer, which has a circulation of some 34, 973 per issue, lists under the heading " RV Friendly Towns" only 3 towns from this area :- Beverly, Quairading and York.

Wikki Camps internet site, has I was informed fabulous reviews about York's free RV site.

The Councillors who were brave enough initially in having the existing RV site constructed, displayed great foresight, in realising that tourism in all its forms is the future for small country towns.

Perhaps, the decisions being considered on this proposed relocation of the existing RV site, demands further research to ensure the baby is not being thrown out with the bath water.

I remain a person strongly motivated by my love for this town and its future welfare. (Attachments 17.)

Grey Nomad's have a very good network. We share the good + the bad.

At present, York is by word of mouth, one of the best, so we encourage everyone to stop here + spend our money.

B. T. W. We would not have stayed in York if the only option for caravanners was the York Caravan Park. This free campsite brought us here and we have bought diesel, beer, been to pub motor museum tomorrow, fish and chips tonight.

IN THIS NEXT SECTION, Please indicate by ticking the relevant boxes, your reaction if the following facilities were either not available or your stay could be affected if the RV site was relocated to another area, refer App. C & D.
