Moved to York 5 years ago, I have built our house with support from friends and neighbours along with local trades.

The kind supporting help from locals motivates me to want to pay back by helping the community of York.

I stood for a seat in the previous state election representing the Sustainable Australia party and I still maintain the objective of living a sustainable life in a fair and reasonable manner.

I am an active member of both York fire brigades, training and gaining skills to support the York and nearby communities.

I will provide a balanced representation on the council being guided by you, the rate payers, in an open consultative process.

As an admin of York Community Concerns on Facebook, I see that there are a lot of people with contrasting views and desires however there is a common thread of wanting safety, security, and consistency for the future of our community.

I want to represent you to help make this happen.
