## Local Area Study Suggested Use

Cut up and issue photographs to individuals/groups of students or compile booklets. Students search the centre of town to locate the buildings in each photograph and record how they have changed or remained the same, suggesting reasons for their answers.

**Route:** Begin at the Town Hall, Avon Terrace, Macartney Street (three buildings are located just beyond the intersection of Avon Terrace and Macartney st), Howick Street, South Street (cross the railway track for a good view of the Railway Station), Railway Street then Joaquina Street to return to Avon Terrace.
