Concept for the main street Avon Terrace from the Castle to opposite IGA

Objectives:

Slow down traffic.

Bring life back into central York.

Suggested works:

New paving utilizing low non impact speed humps. Planter units using half wine barrel's and containing trees. Street lighting.

Additional suggestion to benefit town bring markets closer to main street - how not sure but it would be a win win for both residents and tourists - particularly tourists/visitors.

16.10 hrs - 4th November 2014
