**SHIRE OF YORK
RETROSPECTIVE PLANNING APPLICATION
INFORMATION SHEET**

What is a Retrospective Planning Approval?

Retrospective planning applications are applied for developments within the Shire that have been commenced or completed without first obtaining approval for a variety of reasons.

Clause 7.14 of the York Town Planning Scheme No. 2 states that Council may grant planning consent to a use or development already commenced or carried out regardless of when it was commenced or carried out, if the development conforms to the provisions of the Scheme.

The development which was unlawfully commenced is not rendered lawful by the occurrence of any subsequent event except the granting of planning consent, and the continuation of the development unlawfully commenced is taken to be lawful only upon the granting of planning consent.

If the application relates to a building, then a retrospective Building License will also be required. The application requirements should be discussed with Council's Building Surveyors.

How do you apply?

Council's Planning Application form details the information that is required to be submitted with all planning applications. Your application must be complete before Council can make an assessment.

In addition to the standard application requirements, all applications for retrospective approval need to be accompanied by a written justification as to why Council should accept the application and not instigate compliance action.

Retrospective Application Fees

Schedule 2 of the *Planning and Development Regulations 2009* stipulate the fees Council can impose for planning applications. The Regulations state that applications for development where the development has commenced or been carried out is the adopted application fee, plus by way of penalty, twice the normal application fee. This application fee must be paid at the time of making the application, together with the advertising fee of \$165.00.

For example, if any application relates to a development that has an estimated cost of less than \$50,000, then the normal fee is \$135.00 and therefore, the retrospective application fee is \$305.00. The total fees payable upon lodging the application is \$305.00 plus \$165.00, which equals \$470.00.

Refer to Council's Information Sheet on Fees and Charges, or contact Council, to determine the fee applicable to your application.

Assessment of Applications

Once your application has been submitted, Council's Planners will determine if the proposal is permissible under the provisions of the York Town Planning Scheme No. 2.

If your proposal is not permissible under the provisions of the Town Planning Scheme, then Council is unable to accept an application and you will be directed to cease the development.

Once your application is submitted to Council, it will be publicly advertised as a retrospective planning application, and assessed to ensure that the development can comply with the relevant provisions of the Town Planning Scheme.

Following completion of the advertising period, if a submission is received, the contents of the submission will be assessed by Council's Planners and may be discussed with the applicant, and then the application will be determined at a Council meeting by Council. If no submissions are received, then the application can be determined by Council Officers under delegated authority.

Please be aware, that even though you may submit a retrospective planning application, there are no guarantees it will be approved. Every application is assessed on its merits, and any objection lodged against the development will be taken into consideration.

If Retrospective Planning Approval IS Granted

If retrospective planning approval is granted, no action will be undertaken by Council for the unlawful commencement of the development or use.

The applicant and land owner are responsible to ensure that if a Building License is required, then a Building License is obtained prior to the re-commencement or finalisation of works.

If Retrospective Planning Approval is NOT Granted

If the development or use breaches the Scheme and is not brought into compliance, Council in addition to issuing a refusal decision may undertake further action until the development conforms to the provisions of the Scheme.

If no action is taken by the owner/ applicant to rectify an unlawful development, heavy penalties may apply and result in prosecution. If found guilty of an offence pursuant to the Planning and Development Act 2005 the penalty is \$50,000 with an applicable daily penalty of \$5,000.
