Dear Tony

The York Community Resource Centre (CRC) Inc. thanks the Shire for their positive action at its last council meeting towards our request to have planning fees waived. Our request did however ask for both planning and building fees to be waived.

Hence, I ask that you please consider that any building permit fees also be waived to help relieve some of the financial burden, and to allow our relocation project the best chance of success.

The relocation of the CRC to the main street into fully owned premises is a huge stepping stone. The York CRC aims to empower the community through the provision of government services, educational and self help opportunities. Starting out in 1999 as a Telecentre, to its rebranding in 2010 as a Community Resource Centre, the CRC has expanded and grown to the demands of the community. As part of a wide ranging CRC Network with over 108 CRCs within regional WA, our future looks bright and our relocation project endeavours to help us to continue our aims.

A good working relationship with the Shire is very important to us and we look forward to a time where both Council and CRC committee and staff can meet informally over a cuppa. We look forward to working with the Shire of York to improve the economic, business and social development of the community and to make York a great place to live, learn, visit and do business.

Yours sincerely,

Gordon W Marwick  
Chairman  
1 October 2013
