

Appendix 3

Works Committee Meeting 2nd October 2014

Parks and Gardens Report

Shire has employed Rob Macey as a gardener as of 3 weeks ago
He has spent all these past 3 weeks replacing faulty reticulation with Neil.
After a while he will continue as a general gardener under the supervision of
Leading Hand, Rob McKenzie.
It will take him sometime for him to settle into the position

Primarily operational works being undertaken through Rob, Peter Murray and
Keith

All reticulation apart from Avon Park completed, waiting on additional parts to
complete this reserve
Had a word with Leading Hand (Rob McKenzie) and Neil is setting the
controllers as we speak for the warmer season

Met with Staff re fertilizer application on Forrest Oval

Viewed the returfing at Race course and discussed their fertilizer applications

Have since selected and organised for a turf fertilizer to be purchased from
Emfert

Met with Keith, Peter and staff, plus Terry Racich from Lawn Doctor Turf
Company. He seems pretty pleased with the progress of the new ground. Has
had some work previously on these grounds

Lawn Doctor contracted to spray for lawn beetle and verti drain the fields and
lawn areas within the Shire commencing next week.

Terry recommended that Shire looks into liquid fertilizing of the ovals and
playing fields through the watering system....Keith

Sand removed from cricket pitch (after football season)
The immediate area around the pitch has been re-turfed and is being watered
constantly

Ian Crombie
